Hi Andy,

A little back ground info, Ameren sent a USB with modeling files and 2 external drives along with it. I'm not sure of the contents in the drive though. The unloadable files were put in FDMS the rest are available upon request with the exception of the drives.

We got this request already for the modeling files. We are sending her what we have on the USB but won't be able to send whatever is on the drives.

Assem mentioned that you have the info that's on the drives on a more user friendly format. Could you send those to us?

Also did Ameren said what was on the drives?

Regards,

Subject: Request for documents submitted to EPA but not available at regulations.gov

Thank you for the helpful phone conversation. I am following up to request materials submitted to EPA in docket EPA-HQ-OAR-2014-0464 by Ameren Missouri (ID: EPA-HQ-OAR-2014-0464-0326) that are not available at regulations.gov.

Exhibit 7, Appendix E, is “Supporting Modeling Data Hand-delivered to EPA’s Docket Center on 3/31/2016” – see attached

Exhibit 15 is “Alpine, WRF Modeling Data – Input Files Provided to EPA in hard drive form on 3/31/2016” – see attached.

Thank you for your assistance in obtaining copies of these documents.
